EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 24-38 (renumbered claims 1-15) are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 24 (renumbered claim 1), the primary reason for allowance is that the prior art fails to teach or reasonably suggest de-activating stages of an analog-to-digital converter (ADC) for an analog front end circuit of an image processing system during a reduced resolution mode.

As for claim 29 (renumbered claim 6), the primary reason for allowance is that the prior art fails to teach or reasonably suggest an analog-to-digital converter (ADC) for an analog front end circuit of an image processing system having analog-to-digital converter (ADC) stages for the ADC wherein at least some of the ADC stages are de-activated during a reduced resolution mode.

With regard to claim 34 (renumbered claim 11), the primary reason for allowance is that the prior art fails to teach or reasonably suggest activating stages of an analog-to-digital converter (ADC) for an analog front end circuit of an image processing system that is operating in a normal resolution mode and de-activating at least some of the stages of the ADC when the image processing system is operating in a reduced resolution mode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
